

Frequently Asked Questions

ABOUT THE PROGRAMME

What is the Emergenetics Profile Certification programme?

The Emergenetics Profile Certification programme is a 3-day train-the-trainer course which provides you with an in-depth knowledge of the Emergenetics Profile. It is conducted by an Emergenetics Master Associate who is a trained expert in the Emergenetics Profile.

These certification programmes are hosted around the world at various times throughout the year. However, any group that has 5 or more interested participants can host their own custom class at the date and location of their choice. Drop us an email at workshops.sg@emergenetics.com if you are interested to host your own custom Emergenetics Profile Certification class.

What is unique about Emergenetics Profile Certification programme?

This train-the-trainer session is designed to equip you with the necessary knowledge and skills to develop and implement the Emergenetics Profile in your training programmes, whether these are offered to your own clients, or to your staff members in an organisation.

There are three factors of Certification that make it stand out from the rest:

Participant Perspective

The format of Certification allows you to experience and learn the material from the perspective of a participant. The unique perspective you gain can enhance the way you deliver the material for maximum impact.

Experiential Learning

The programme is conducted is highly interactive and includes group discussions, numerous activities and opportunities for personal reflection. The Certification programme also provides opportunities for you to test out your knowledge and build your confidence in content delivery in a safe, encouraging environment.

Continuous Learning

Certification is more than just a 3-day workshop. Associates also join our proprietary, continuing learning system, including a Blueprint process and opportunities to deepen your learning through workshops and conferences to ensure you are ready and always updated to deliver your own Emergenetics-powered workshops.

In addition to the Emergenetics Profile, Associates have access to team reports that may be used to deepen team insights and leverage cognitive diversity. All reports are managed from one centralised digital platform.

I have a few colleagues who may be interested in the programme. Can special arrangements be made for our group?

Yes! Any group that has 5 or more participants can host their own custom certification for their organization with significant discounts offered on the cost of each individual seat.

How much does it cost?

The Emergenetics Profile Certification in Singapore costs SGD5,000.
This allows you to practice globally.

For prices of the programme conducted in other countries, contact us at workshops.sg@emergenetics.com

POST-PROGRAMME BLUEPRINT PROCESS

What happens after I attend the 3-day Emergenetics Profile Certification programme?

Following the 3-day programme, you would need to complete a Blueprint process. The process requires you to complete two written assignments and conduct an Emergenetics-based workshop that will be assessed by a Master Associate. You will be provided with 8 complimentary Emergenetics profiles to use to complete your blueprint.

What is the duration of the Blueprint process?

The recommended time needed to complete the Blueprint is 90 days.

What am I able to do after completing the Blueprint process?

After you complete the Blueprint process, you will then be certified and allowed to conduct your own workshops using the Emergenetics Profiles.

BEING A CERTIFIED EMERGENETICS PROFILE ASSOCIATE

What support can I expect as an Emergenetics Profile Associate?

There is a dedicated team who will support you in your journey in being an Emergenetics Profile Associate. The support ranges from answering your unique queries, to providing technical support and ensuring your Emergenetics profiles are ready for you to use for your workshops.

Is there an annual fee to continue practising as an Associate?

There is no annual fee to continue practising as an Associate so long as you continue to use and purchase the Emergenetics Profile consistently.

However, in the spirit of ensuring all Emergenetics Associates are kept updated on the content, there is an annual knowledge test that is compulsory. eLearning modules are available to continually refresh your knowledge. Associates who fail to take the test will have their accounts de-activated. Reactivation fees apply if they wish to re-activate it.

Do you provide training resources?

All the training resources you need to begin training as an Emergenetics Associate will be given to you during the 3-day programme. Upon completion, you will be given full access to the centralised digitalised platform where you can find additional training resources to help you get started.

Does it matter if I am part of an organisation or if I am an independent consultant?

Emergenetics works for both in-house professionals and independent consultants. The theories learnt during the programme can be integrated into current training programmes that you have already developed.
